EXPERIENCE

DLS Events LLC, Raleigh, NC — *Bartender*

June 2019 - PRESENT

For this job, I report to The Ritz in Raleigh, NC. It is a small venue that hosts concerts and other events. Bartending at The Ritz is high volume and extremely fast paced. At this job, I gained skills in multitasking, customer service, team collaboration, and time management. Laid off due to Covid-19.

Flex Nightclub, Raleigh, NC — *Bartender/Barback*

Aug. 2018 - PRESENT

I barback and occasionally bartend at this bar/nightclub in Raleigh. Because of the diverse clientele at Flex, I regularly came in contact with and served people coming from all backgrounds. I've become more experienced with customer service and conflict resolution since I started this job. Laid off due to Covid-19.

Svannberg Construction, Raleigh, NC — *Carpenter*

June 2014 - Aug. 2018

A family owned carpentry business I worked in for roughly 4 years. We worked for the HOA of several neighborhoods in the Raleigh area and performed repairs on homes that were applicable. I learned a lot about team collaboration and exterior repairs on residential homes.

EDUCATION

University of North Carolina, Chapel Hill, NC —

Certificate – Full Stack Flex Web Development

Aug 2020 - PRESENT

A full stack, fast-paced, Javascript based web development course at UNC that focuses on MERN development (MongoDB, Express.js, React, Node.js). In a short time, I've learned a vast amount about Javascript development on the front and back end, as well as use of several frameworks and libraries. Continues until February, 2021.

SKILLS

Full-Stack Development:,
NPM, Node.js, JQuery, Express.js, Bootstrap, HTML, CSS, JavaScript, Axios, JSON APIs, RESTful API Access Level Management Design, MVC Architecture, CLI, Git Version Control, Agile Software Development, GitHub, CrossBrowser Optimization Techniques

Soft Skills

Time management, customer service, conflict resolution, coachability, adaptive, team collaboration, self-motivated

South Granville High School, Creedmoor, NC —

High School Diploma

Aug 2008 - June 2012

PROJECTS

Pokémon Battle Royale

A Pokémon battling game which uses the PokéAPI to gather stat information on the user's searched Pokémon, then makes them battle!

Weather Dashboard

A simple weather dashboard app that allows the user to search for any city in the world and returns the current forecast as well as a future 5-day forecast

Day Planner

A simple day planning app that allows the user to input text to the hour long time blocks to plan a 9-5 work day. The time blocks will change color based on past, present, and future.
